- **The Scalpel and The Silver Bear**

The Scalpel and the Silver Bear is a **poignant, fluidly written autobiography of a Navajo woman, tracing her steps from the reservation in Crownpoint, Ariz, where she grew up to the upper echelons of academic medicine at Dartmouth University.** In between is a compelling tale of the cultural and psychological hurdles that Native Americans and women face in the world of medicine. A spellbinding journey between two worlds, this remarkable book describes surgeon Lori Arviso Alvord's struggles to bring modern medicine to the Navajo reservation in Gallup, New Mexico—and to bring the values of her people to a medical care system in danger of losing its heart. 205 pages

Authors: Lori Arviso Alvord & Elizabeth Cohen Van Pelt

Amazon in paperback: \$17.00

➤ **The Diving Bell and The Butterfly: A Memoir of Life in Death**

In 1995, Jean-Dominique Bauby was the editor-in-chief of French **Elle**, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, repeatedly. In the same way, he was able eventually to compose this extraordinary book.

By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again, and again he returns to an "inexhaustible reservoir of sensations," keeping in touch with himself and the life around him.

Jean-Dominique Bauby died two days after the French publication of **The Diving Bell and the Butterfly**. This book is a lasting testament to his life.

➤ **Speak (Caution: this book has violence & sexual assault!)**

The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself.
